

Employment First Florida Grassroots Group Meeting Summary

Date: October 17, 2017

Topic: Transportation: Getting to Work

Presenters:

Safee Broxton Florida Developmental Disabilities Council

Ashley Wolfe, Institute for Community Inclusion

What did they cover?

October's Grassroots Group online meeting topic was transportation. To have a full and meaningful life, people with disabilities need access to their community and this means transportation to and from where ever they want to go. Without reliable, affordable, and safe transportation, people may be limited to where they find a job. Unreliable transportation can put an employee's job at risk. Our October discussion focused on solutions that have been used in Florida and across the nation to improve transportation for individuals with disabilities.

What resources did the presenters share?
