

## Strategic Implementation Action Plans

- Draft Template
  - Categorical Areas
    - Strategic Goals and Operating Policies
    - Financing and Contracting Methods
    - Training and Technical Assistance
    - Interagency Collaboration
    - Services and Service Innovation
    - Performance Measurement, Quality Assurance and Program Oversight
  - Establishes long range goals, short-term objectives, perceived barriers/challenges, person(s) responsible, start and end dates, collaborative roles and responsibilities (if applicable)
  - Individual agency/organization goals
  - Collaborative emerging goals
    - Training and technical assistance
      - Develop comprehensive training and cross-training programs with partners to promote awareness of the breadth of agency or organization services and collaborate more effectively
      - Revisit and update matrices created in 2013 to identify existing provisions of training, technical assistance, and resources; evaluate effectiveness of existing modalities; and identify gaps and potential methods of better coordination among all partner agencies and organizations
      - Ensure that Florida has a comprehensive training program that culminates in quality integrated, competitive employment options for all individuals with disabilities.
      - Develop a coordinated interagency training plan for job developers and job coaches
      - Increase cross-agency trainings to educate agencies and direct care service providers who assist persons with disabilities.
      - Build a workforce development infrastructure that promotes collaborative training
